Dung Nguyen (Jasmine)

Senior Frontend Engineer

0398060569 | dungntp.contact@gmail.com | portfolio | Ho Chi Minh City

PROFESSIONAL SUMMARY

Senior Frontend Engineer with **9+ years of experience** building and maintaining web applications across fintech, e-learning, e-commerce, and business management.
Experienced in **frontend architecture, reusable components**, API integration, and complex business workflows.
Takes **ownership of features** from requirement clarification through implementation and testing, and **uses AI-assisted development** tools to improve problem-solving and delivery efficiency.

SKILLS

Core: JavaScript (ES6+), TypeScript, React, Next.js, HTML5, CSS3.
State & Data: Redux, Rematch, Jotai, React Query, SWR, REST APIs, WebSocket.
UI & Tooling: Material UI, Ant Design, Tailwind CSS, SCSS, Storybook, Git, Vite, Webpack, Turborepo.
Additional: Shopify Liquid, React Native, AngularJS, jQuery.
AI-assisted Development: Cursor, Claude Code, ChatGPT, GitHub Copilot.

EXPERIENCE

Nexstox

May 2025 – May 2026

Senior Frontend Developer

- Developed frontend features for NexStox and NXMarket fintech platforms, including staking, launchpad, trading, wallet, transaction history, KYC, and authentication workflows.
- Implemented a shared frontend codebase using environment-based configuration to support two platforms with different themes, pages, and feature availability.
- Built reusable feature components to reduce duplicated implementation and maintain consistent behavior across related workflows.
- Started as the sole frontend developer during the first three months, taking ownership of frontend implementation and delivery.
- Collaborated with backend developers and stakeholders to clarify business requirements, integrate APIs, and resolve issues in complex financial workflows.
- Participated in end-to-end verification of admin-to-user workflows, including staking, deposits, trading, and account interactions.

React · TypeScript · Next.js · Material UI · Redux Toolkit · REST APIs · WebSocket

Lecle VietNam Jsc.

March 2019 – May 2025

Senior Frontend Developer

- Contributed to the delivery of 30+ projects across e-commerce, e-learning, ERP, and enterprise management platforms.
- Initialized frontend projects, configured development tooling, and built reusable components to support maintainable application development.
- Built interactive e-learning experiences, including video playback, digital book mode, subtitles, chapter navigation, bookmarking, and real-time comments.
- Developed complex data-driven administration interfaces, including interactive calendars, dynamic forms, tables, charts, and inventory management workflows.
- Customized Shopify storefronts using Liquid, including product and collection pages, product variants, navigation, responsive layouts, and Mailchimp integration.
- Mentored 5 junior frontend developers through onboarding, technical guidance, and code reviews.
- Collaborated with designers, backend developers, and project teams to translate requirements into maintainable frontend solutions.

React · TypeScript · Next.js · Tailwind CSS · CSS Modules · Styled-components · React Query · SWR · Jotai · Redux · Rematch · Vite · Turborepo · REST APIs · Shopify Liquid · React Native

Pure Projects Co. Ltd.
Jan 2018 – Oct 2018

Frontend Developer

- Built production web features using HTML, CSS, and Vanilla JavaScript.
- Implemented API-driven features, including pagination, filtering, and editing forms.
- Collaborated with QA throughout development and release to ensure quality.

HTML5 · CSS3 · JavaScript (ES5 + ES6) · Bootstrap · REST APIs

TicketBox Co. Ltd.
May 2016 – Dec 2017

Frontend Developer

- Collaborated with Design and Business teams to deliver event landing pages.
- Developed event detail pages with interactive interfaces and scrolling animations.
- Built event pages and ticket-booking experiences using JavaScript, AngularJS, CSS3, and jQuery.
- Worked with Design, Backend, Mobile, and Business teams in an Agile environment.

HTML5 · CSS3 · JavaScript (ES5) · jQuery · AngularJS · Bootstrap · REST APIs

KEY PROJECTS

NexStox & NXMarket Trading Platforms

- Developed staking workflows covering staking, unstaking, stake-more, rewards, and penalty-related interactions.
- Implemented Launchpad Purchase features with balance display, purchase limits, amount validation, and transaction feedback.
- Supported two fintech platforms through a shared frontend codebase with environment-based configuration.
- Developed and modernized user interfaces for KYC, authentication, wallet, deposits, withdrawals, and trading.

React · TypeScript · Next.js · Material UI · Redux Toolkit · REST APIs · WebSocket

E-Learning Platform

- Initialized and configured a Turborepo monorepo supporting student and admin applications with shared TypeScript data models.
- Developed interactive learning experiences combining video playback, digital books, subtitles, chapter navigation, and page synchronization.
- Built a two-level commenting system with parent comments, one level of nested replies, likes, and real-time updates.
- Integrated Jotai, SWR Infinite, and WebSocket-driven updates to support page-specific comments and asynchronous data interactions.

React · TypeScript · Next.js · Ant Design · Jotai · SWR · Turborepo · REST APIs · WebSocket

Cleaning Services Admin Dashboard

- Helped establish the frontend project structure within a two-developer frontend team.
- Developed administration workflows for cleaning requests, maintenance, reporting, and inventory management.
- Built data-heavy interfaces combining interactive calendars, tables, charts, tree views, drawers, and dynamic forms.
- Implemented data transformation and presentation logic for inventory and operational workflows.

React · TypeScript · Ant Design · Jotai · Vite · SWR · REST APIs

EDUCATION

Ho Chi Minh City University of Science
2010 -2013

College Diploma in Information Technology
